## Consultation Dates

Auki – Provincial Government Representatives & communities	27/8/2019
Auki – NGOs and community representatives	27/9/2019
Maluu (Northern region) – community	29/8/2019
Auki (Central region) - community	30/8/2019
Tawaimare/West AreAre - community	01/9/2019
Afio (East AreAre region) - community	02/9/2019

Honiara - Malaita Outer Islands (Lord Howe and Sikaiana) (meeting held in Honiara)	19/9/2019
--	-----------

## Introduction

Malaita consultation was done in Malaita province from 26th August to 2nd September 2019. Consultation was done with Malaita Provincial Government, NGOs and community representatives from Fataleka, Lau and Mbaelelea, Baegu Asifola, Kwaraáe, Kwaio, Areaáre and Small Malaita. A separate consultation was later conducted in Honiara on 19th of September 2019 with representatives from Malaita Outer Islands particularly, Lorde Howe and Sikaiana Islands.

In Malaita, 3 consultation sessions were held in Auki with the Provincial Government, NGOs and community representatives from Auki Langa Langa, Kwaraáe, Fataleka, Lau and Baegu Asifola, Kwaio and Area'are on the 27th and 30th August respectively. Three other consultations were done in Maluú Station on the Northern region, Tawaimare in West Areaé and Afio in Small Malaita on the 29th August, 1st September and 2nd September 2019 respectively.

On 19<sup>th</sup> September 2019 a consultation meeting was held in Malaita for community representatives of the outer Islands

## Results and Feedback

### 27<sup>th</sup> August 2019 – Auki (morning session) – Provincial Government Executives and community representatives

#### General Discussion:

- The Provincial Secretary for Malaita Province stated that the Malaita Alliance for Rural Advancement recognized fishery and forestry as 2 important sectors for the provincial economy.
- There are opportunities for Reef Fish trade targeting demersal fish such as snapper to maximise benefits from coastal fishery because more benefits are received from off shore but little investment on the coastal fisheries.
- Data sets presented has to be made accessible to the community and provincial government through the provincial fisheries officer.
- More marine managed areas should be established along the coast to ensure conservation for future generation.
- To achieve the objectives of the Ocean Policy, people must start with their actions as more often ones actions contribute to pollution and over harvesting of the marine resources.
- Mechanisms has to be in place to strengthen and safe guide process to achieve the ocean plan. The mechanism referred to is a central hub where information is available to the communities.

The proposed hub is to have an office as in the provincial government as the depository of such information.

- Improved monitoring on licensed fishing vessels should be done as concerns on local fishing fleets are fishing too close and in the customary owned waters.

Questions	Coastal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	<p><b>Economical Activities (green)</b></p> <ul style="list-style-type: none"> <li>• Local fishing ground</li> <li>• Commercial fishing area – Offshore raft</li> </ul> <p><b>Social/Cultural Activities</b></p> <ul style="list-style-type: none"> <li>• Long line Fishing ground</li> <li>• mangrove use – bean pods for food and wood for firewood</li> </ul>	<ul style="list-style-type: none"> <li>• Commercial deep sea long line fishing</li> </ul>

What activities would you like to see where?	<ul style="list-style-type: none"> <li>• Protection of mangrove along the coast on the main land (orange)</li> <li>• Protection of mangrove on Leli Island (Pink)</li> <li>• Protection of coral reefs (pink)</li> </ul>	<ul style="list-style-type: none"> <li>• Tuna fishing – offshore seas</li> </ul>
What activities do you think should be stopped or restricted?	<ul style="list-style-type: none"> <li>• Logging and log ponds along the coast should be stopped</li> <li>• Long line commercial fishing too close to the islands should be checked as fishing areas is too close to customary waters</li> <li>• Coral harvesting for coastal protection should be stopped</li> </ul>	<ul style="list-style-type: none"> <li>• Driftnet fishing</li> </ul>

#### **Tell us the best way to keep you informed or involved.**

Establish a central contact station in Auki where regions would receive information and other relevant resources on the ocean program

#### **What do you think of ocean planning? What are your reasons?**

Ocean planning is a brilliant initiative to protect our ocean and involvement of people in the planning process is important as people will be aware and shall adhere to the ocean plan

#### **One day there will be an “Ocean law” – what do you think should be included/considered?**

Law must be applicable to foreigners as well as people in SI and resource owners

Group 2: Map #6, 8, 10 – Auki region

Group members: Honourable Dick Pola, Henry Adi, David Dau, Charles Bosi, William Walefia, Linda Sanau, Steward Tatalu

Questions	Costal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	<ul style="list-style-type: none"> <li>• Logging activities (2,5,6,11,12)</li> </ul>	<ul style="list-style-type: none"> <li>• Offshore Fishing grounds (1)</li> <li>• Tourism sites (2)</li> </ul>

	<ul style="list-style-type: none"> <li>• Fishing grounds with rafters (8,9,10)</li> <li>• Fishing rafts (14,15)</li> <li>• Oil mineral findings – inland (7)</li> <li>• Mangrove harvesting (16)</li> <li>• Tourism – home stay (13)</li> <li>• Marine conservation site (3)</li> </ul>	<ul style="list-style-type: none"> <li>• Tuna Processing Plant (3)</li> <li>• Proposed nickel mining site (Isabel Province)</li> <li>• Logging sites</li> </ul>
What activities would you like to see where?	<ul style="list-style-type: none"> <li>• More home stay built in the current tourism site (13)</li> <li>• Sustainable fishing activities in Alite Reef as the reef is prone to dynamite fishing</li> <li>• More conservation efforts should be implemented</li> </ul>	<ul style="list-style-type: none"> <li>• Offshore fishing activities</li> <li>• Existing tourism sites to remain</li> <li>• Noro tuna cannery plant to remain where it is</li> </ul>
What activities do you think should be stopped or restricted?	<ul style="list-style-type: none"> <li>• Logging Activities should be stopped</li> <li>• Cutting down of mangroves should be stopped</li> </ul>	<ul style="list-style-type: none"> <li>• IUU fishing</li> <li>• Logging in Malaita Province</li> <li>• Stop mining in Rennel and Bellona</li> </ul>

#### **Tell us the best way to keep you informed or involved.**

- Utilize Community Liaison Officers (CLO) to supply information to communities. Currently there are 15 CLOs, additional 18 will be recruited.
- A central information centre is needed and the option is to either use the Provincial Fisheries Office or a central hub to function for that purpose of decentralizing information to communities.

#### **What do you think of ocean planning? What are your reasons?**

Ocean Planning is a good idea to manage our ocean resources for a healthy living and environment

#### **One day there will be an “Ocean law” – what do you think should be included/considered?**

- Laws to protect ocean. Implementation of ocean zones and enforcement of the zones.
- Prioritize local people to harvest/invest in resource utilization

- Loan schemes available and accessible to local people to invest in ocean entrepreneurship.

Group members: Martin Mae, Honourable William, Honourable Peter, Mercy Philip, Peter Sara, Erick Mani, Charles Kafo

Questions	Costal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	<ul style="list-style-type: none"> <li>• Logging – Taelou area (1)</li> <li>• Proposed undersea cable landing in Auki (2)</li> <li>• Dynamite fishing in Langa Langa lagoon (3)</li> <li>• Logging in Bina (4)</li> <li>• Logging in Tabaá (5)</li> <li>• Logging in Bona (6)</li> </ul>	<ul style="list-style-type: none"> <li>• Long line tuna fishing (1.1)</li> <li>• Dolphin hunting (1.2)</li> <li>• Purseiner fishing (1.3)</li> <li>• International fishing route (1.4)</li> </ul>

	<ul style="list-style-type: none"> <li>• Dynamite fishing in Alite Reef (7)</li> </ul>	
What activities would you like to see where?	<ul style="list-style-type: none"> <li>• Taeloa area should be preserved for sustainable fishing (8)</li> <li>• Proper waste dump site for Auki (9)</li> <li>• Aquaculture activities – seaweed, clam and coral farming (10)</li> <li>• Bina-Bona should be preserved for sustainable fishing and rehabilitation (11)</li> </ul>	<ul style="list-style-type: none"> <li>• Security surveillance of the EEZ to prevent illegal fishing (2.1)</li> <li>• Petroleum prospecting (3.1)</li> <li>• Undersea mining (3.2)</li> </ul>
What activities do you think should be stopped or restricted?	<ul style="list-style-type: none"> <li>• All logging activities to be stopped and preserved for sustainable development and rehabilitation (12 &amp; 13)</li> <li>• Dynamite fishing should be stopped (14)</li> <li>• Conservation &amp; preservation area (15)</li> <li>• Magnet netting should be stopped (16)</li> </ul>	<ul style="list-style-type: none"> <li>• Petroleum prospecting (3.1)</li> <li>• Undersea mining (3.2)</li> </ul>

**Tell us the best way to keep you informed or involved.**

- Media communication
- Organizing awareness workshops and trainings

**What do you think of ocean planning? What are your reasons?**

Important for sustainable activities that will benefit the future generation and economic beneficial of Solomon Islands

**One day there will be an “Ocean law” – what do you think should be included/considered**

- Heavy penalties on lawbreakers

## 27th August 2019 – Auki (afternoon) – Stakeholder: NGOs and community representatives

*Figure 4: Auki - NGO and community representatives*

### General Discussion:

- Forestry policy should be amended as the increasing logging activities is detrimental to marine life.
- Logging is a challenge for marine conservation areas especially in Areare. Also rafters that were deployed are not protected resulting in vandalism. More awareness to communities is needed for marine managed areas and protection of fishing rafts.
- Importation of plastic should be banned to avoid marine pollution and killing of endangered marine animals.
- More awareness on the importance of our ocean to the young generation is needed to influence a positive attitude towards the ocean in an early stage.
- Provincial government to consider strengthening the governance of activities within its provincial jurisdiction especially on issuing of license to fishing vessels, domestic ships travelling in the provincial water and to prohibit disposal of oil from vessels into the sea.
- A separate Ministry for Ocean itself with its own policy and legislation to govern the ocean.
- There is a need to have strong surveillance around and within our oceans to monitor foreign fishing vessels.
- There is a gap between communities and government ministries in terms of information sharing concerning policies. This gap can be addressed through awareness raising in communities and schools.

- Formal education

- Social media

**What do you think of ocean planning? What are your reasons?**

**One day there will be an “Ocean law” – what do you think should be included/considered**

Ocean law should be administered by a Ministry of its own.

Group 2: Map #6, 8, 10

Group members: Paul Baera, Ben David, Willie Bill, Ben Wale, William Dausina, Philip Lado, Philistus Sago, June Toloau, Causto Dala

Questions	Costal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	<ul style="list-style-type: none"> <li>• Logging sites (pink sticker)</li> <li>• Locally managed area (orange)</li> <li>• FADs (yellow)</li> </ul>	<ul style="list-style-type: none"> <li>• Orange stickers</li> <li>• Local and international shipping routes</li> <li>• PAIO fishing fleets/local fishermen (OBM)</li> <li>• Dump site for wrecked ships</li> <li>• Arnavon conservation</li> </ul>
What activities would you like to see where?	<ul style="list-style-type: none"> <li>• Propose LMMA for Auki Harbour reef and most coastal areas</li> <li>• More coastal or inshore FADs as alternatives for LMMA</li> <li>• Proposed restricted conservation area or no go zone</li> </ul>	<ul style="list-style-type: none"> <li>• Pole and line in all tuna hot spots (yellow)</li> </ul>
What activities do you think should be stopped or restricted?	<ul style="list-style-type: none"> <li>• Logging should be stopped</li> <li>• Dump site should be relocated/recycled</li> <li>• All depo to move inland out from rivers or enforce petroleum laws</li> </ul>	<ul style="list-style-type: none"> <li>• No Paio fleet fishing (later become law)</li> <li>• Only licensed boats to enter waters</li> </ul>

**Tell us the best way to keep you informed or involved.**

- Awareness through media, newspaper etc
- Phamphlets
- schools

**What do you think of ocean planning? What are your reasons?**

Good thing to do as people involved get to know the activities happening in the ocean and its resources.

**One day there will be an “Ocean law” – what do you think should be included/considered?**

- Proper mapping of our international EEZ
- Proper mapping of our provincial waters

**Group 3: Map #6, 8, 10 – Auki region**

Group members: Steward Tatalu, Andrew Waleluwa, Aloy Tusulia, Janny Kwaromo, Grace Tegu, Nelson Niuga, Jill Houma

Questions	Coastal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	Green sticker <ul style="list-style-type: none"> <li>• Township, wharf, fishers centres (A)</li> <li>• Logging (B)</li> <li>• FADs (C)</li> <li>• Conservation areas (LMMA) (D)</li> <li>• Tourism (E)</li> </ul>	Green stickers <ul style="list-style-type: none"> <li>• Purseiner boats (A)</li> <li>• Long liner boats (B)</li> </ul>
What activities would you like to see where?	Yellow sticker <ul style="list-style-type: none"> <li>• CBRM sites (D)</li> <li>• Fisheries centre (A)</li> <li>• FADs (c)</li> </ul>	Yellow stickers <ul style="list-style-type: none"> <li>• Commercial deep sea fishing near the coast</li> <li>• Industrial FADs</li> </ul>
What activities do you think should be stopped or restricted?	<ul style="list-style-type: none"> <li>• Logging (B)</li> </ul>	Orange stickers <ul style="list-style-type: none"> <li>• Purseiner boats</li> </ul>

**Tell us the best way to keep you informed or involved.**

- Having information centres in the province
- Using Community Liaison officers (CLOs) to give information to the communities and through fisheries centres

**What do you think of ocean planning? What are your reasons?**

Ocean is very important because ocean currently does not have a law but 98% of SI area is ocean.

**One day there will be an “Ocean law” – what do you think should be included/considered?**

Ocean law must be able to penalise law breakers

### 3rd Consultation – 29th August 2019 – Maluú Station – Stakeholder: community representatives

#### General Discussion:

- Some marine conservation areas are not effectively looked after due to population increase.
- There need to be defined territories for the communities, eg. Suava bay as conflicts might arise between different communities.
- The need to remove the negative connotation of ocean as a dump site.
- The question everyone should ask is what do I do that threatened the ocean?
- How well can we enforce commercial fishing activities in our ocean space?
- Lack of control on fishing activities around our shores is seen as a challenge.
- Community governance has to be effective in communities in order to achieve effective ocean governance in the community level. Rules has to be in place and recognition and respect for chiefs and their decrees has to be established.
- Threats from introduction of DDT in the ocean from in uses on land.
- Passenger ships are major contributor of marine litter and responsible authority should have on board trash bins for storage of waste on board vessels.

- Social media
- Verbal awareness
- Community awareness

### What do you think of ocean planning? What are your reasons?

Ocean planning is important for as it will look at resource mapping, economic planning and management of ocean uses, security, conservation, data collection, and livelihood and food security.

### One day there will be an “Ocean law” – what do you think should be included/considered?

- Ocean law has to consider/recognize culture of the people
- Consider looking into Community governance and properly setting up community governance system.
- People’s rights and views must be considered during before any ocean exploitation.
- Tracking system must be placed above and below the ocean to monitor all ocean activities.

**Tell us the best way to keep you informed or involved.**

- Rural awareness and participation in ocean management
- Ocean management must be taught in the school curriculum as a teaching subjects (to inform young generations).

**What do you think of ocean planning? What are your reasons?**

- We have to take a first step and cooperation in planning to manage our ocean.
- Reason- in order to sustainably harvest our ocean resources and conserved them for future uses, from being depleted.

**One day there will be an “Ocean law” – what do you think should be included/considered?**

- Drift net fishing must be totally banned
- Logging companies should be operated by air lift helicopters to lift logs to log points.

Group 3: Map #:

Group members: William Horia, Orleanda Horia, Serah Wane, Douglas Rore, Mary Alu and Bareth Amasia.

Questions	Costal
What activities currently exist in the ocean (economic, cultural, social and management)?	(Red) <ul style="list-style-type: none"> <li>• Logging</li> <li>• Culture</li> <li>• Fishing</li> <li>• Conservation of Leatherback turtle</li> <li>• Management – coconut forestry replanting</li> <li>• Shipping harbour – Suú, Kia, Waisisi Wairokai, Uhu</li> <li>• Log pond – Buma, Maoa, Suú, Wairaha Siua, copra mill, Hauhui, Tawai, Asimona, Maoa.</li> </ul>
What activities would you like to see where?	(Yellow) <ul style="list-style-type: none"> <li>• Prevent seaside erosion</li> <li>• Fish development and management</li> <li>• Mangroves and reef preservation – Are Are lagoon</li> <li>• Rivers management – Kwareekiua, Wairaha, Siua, Maoa, Kwaleegua.</li> <li>• Logging</li> <li>• Trees, mangroves replanting</li> <li>• Aquaculture – for local fish, eels and shrimps.</li> </ul>
What activities do you think should be stopped or restricted?	(Green) <ul style="list-style-type: none"> <li>• Logging activities</li> <li>• Dynamite fishing – undersize fish</li> <li>• Small size net uses</li> </ul>

#### Group 4: Map #:

Group members: Nickson Suri, George Taheri, Victor Waahu, Stanley Ririoa and Susan Funu.

Questions	Costal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	(Green) 1. Logging 2. Marine conservation 3. Fisheries 4. Rafter	(Green) 1. Rafter 2. Long line fishing 3. Net boat 4. Lighting fishing method
What activities would you like to see where?	(Yellow) 5. Tourism 6. Marine conservation	(Yellow) 5. Preserve 6. Diving method
What activities do you think should be stopped or restricted?	(Pink) 1. Logging 1. Rafter	(Pink) 1. Rafter 2. Long line fishing method 3. Net boat

#### Tell us the best way to keep you informed or involved.

- Awareness
- Workshop

#### What do you think of ocean planning? What are your reasons?

- Ocean planning is about how we should care for our ocean
- Reason – is to protect our ocean

#### One day there will be an “Ocean law” – what do you think should be included/considered?

There should be ocean law to be implemented to safeguard our ocean.

#### Group 5: map #

Group members: Billy Pikisa, Tony Allen, Ramo Nati, David Arikiri

Questions	Coastal
What activities currently exist in the ocean (economic, cultural, social and management)?	(Yellow) 1. Log pond 2. Mangrove cutting is prohibited

	<ol style="list-style-type: none"> <li>3. Auki town, pollution form town</li> <li>4. Ship anchorage area</li> <li>5. Fishing area</li> <li>6. FADs and fishing area</li> </ol>
What activities would you like to see where?	(Pink) <ol style="list-style-type: none"> <li>1. Eco-tourism</li> <li>2. Improve planting mangrove tree</li> <li>3. Improvement form pollution</li> <li>4. We need a literreef? for fish farming</li> <li>5. Farming area (fish)</li> <li>6. Clam shell and beach de-mer farmng</li> </ol>

What activities would you like to see where?	<b>(Yellow)</b> <ol style="list-style-type: none"> <li>A. Reinstate FAD</li> <li>B. Want more protected areas and tourism activities</li> <li>C. Aquaculture (seaweed farming)</li> <li>D. Proper sanitation for communities</li> </ol>
What activities do you think should be stopped or restricted?	<b>(Pink)</b> <ol style="list-style-type: none"> <li>1. Prohibit mining around/ near the coast</li> <li>2. Limit further logging activities</li> <li>3. Prohibit dynamite fishing</li> <li>4. Prohibit disposal of sea-waste from ships (local ships)</li> </ol>

19<sup>th</sup> September 2019 – Honiara – Stakeholder; representatives from Malaita Outer Islands

**Group 1 Sikaiana:** Grace Niva, Pualota and Ronald.

Questions	Coastal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	<p>(Yellow)</p> <ol style="list-style-type: none"> <li>1. Fishing for shark fins</li> <li>2. Income fishing</li> <li>3. Diving and trolling, deep sea fishing.</li> <li>4. Cultural fishing technique – using traditional tools and methods eg; coconut frond pool made of coral stones. (<i>suku*</i>, <i>ta-naika</i>)</li> </ol> <p>*tying together coconut fronds to create a net.</p> <ol style="list-style-type: none"> <li>5. Shell collection, lagoon fishing are being controlled for certain periods or events only. Outside diving at night is not allowed. (Management measures).</li> </ol>	<p>(Yellow)</p> <ol style="list-style-type: none"> <li>1. Illegal fishing</li> <li>2. Cannery (Noro)</li> <li>3. Kavachi ea volcano</li> <li>4. Anavon reef (fishing)</li> <li>5. Roncador reef (fishing &amp; wreckage) shipping routes/ domestic</li> <li>6. Beliamia wreckage</li> <li>7. Sea cucumber</li> <li>8. Indispensable reef (fishing)</li> <li>9. John katalake reef (fishing)</li> <li>10. Cultural fishing dolphins (Fanalei, Walane and Lau)</li> <li>11. Oceanic minerals deposit lagoon)</li> </ol>
What activities would you like to see where?	<p>(Green)</p> <ol style="list-style-type: none"> <li>1. Wharf/ transportation access. (floating wharf)</li> <li>2. Beacon/ reflectors for vessels/ boat passages.</li> <li>3. Faring inshore</li> <li>4. To identify deep sea resources or marine life and particles for commercial use. (Awareness).</li> </ol>	<p>(Green)</p> <ol style="list-style-type: none"> <li>1. Identifying wreckage sites for tourism exhibitions attraction.</li> <li>2. Identify locations and installing marine beacon on reefs (there is a stone sighted between Ontong Java and Sikaiana that believed to grow from the ocean floor</li> </ol>

		and nearly two meter (2m) submerge from sea horizon).
What activities do you think should be stopped or restricted?	(White) <ol style="list-style-type: none"> <li>1. Restrict outside diving, commercial fishing (blue boats). Whole of Sikaiana territorial waters.</li> <li>2. There should be restriction on certain fishing spots or grounds in the lagoon for one (1) year period.</li> </ol>	(White) <ol style="list-style-type: none"> <li>1. Preventing illegal fishing of foreign vessels.</li> <li>2. Stop ocean disposal of garbage from domestic and foreign vessels</li> <li>3. Sea resources harvesting control measure – tuna and sea cucumber. (no overharvesting).</li> </ol>

**One day there will be an “Ocean law” – what do you think should be included/considered?**

- The law should capture and reflect protect indigenous communities to have access over their own resources
- Safeguarded reporting mechanism to detect illegal activities eg; - drug trafficking, illegal migration and human trafficking.

**Group 2: Henry Teatilo, Gaberial Talosia, Ellen Tinani Maureen Pugeva**

Questions	Coastal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	(Yellow) <ol style="list-style-type: none"> <li>1. Farming (clam shell)</li> <li>2. Diving of sea cucumber</li> <li>3. Collecting of shells</li> <li>4. Fishing</li> <li>5. Disposing of waste</li> <li>6. Swimming</li> <li>7. Washing/ cleaning of foods (taro and fish)</li> <li>8. Cooking</li> </ol>	(Yellow) <ol style="list-style-type: none"> <li>1. Fishing tuna</li> <li>2. Diving sea cucumber</li> <li>3. Ship travelling</li> <li>4. Waste of mining (marine pollution)</li> <li>5. Spill of waste oil</li> </ol>
What activities would you like to see where?	(Green) <ol style="list-style-type: none"> <li>1. Fishing (fisheries)</li> </ol>	(White) <ol style="list-style-type: none"> <li>1. Undersea cable</li> </ol>

	<ol style="list-style-type: none"> <li>2. Farming of sea cucumber/sea weed/ clam shell.</li> <li>3. Swimming</li> <li>4. Disposing of waste</li> <li>5. Wharf</li> </ol>	<ol style="list-style-type: none"> <li>2. Tourism attraction site – Tulagi sea and Renbel reefs (Indispensable reefs) – dolphin, war wrecks ships</li> <li>3. Telekom tower</li> <li>4. Fishing tuna</li> </ol>
What activities do you think should be stopped or restricted?	(White) <ol style="list-style-type: none"> <li>1. Disposing of waste</li> <li>2. Cleaning of foods (taro &amp; fish)</li> <li>3. Cooking</li> <li>4. Using of too many outboard motors</li> <li>5. No fishing vessels to fish beside the island</li> </ol>	(Green) <ol style="list-style-type: none"> <li>1. Spill of mining to the ocean</li> <li>2. Stop allowing vessels to fish illegally</li> <li>3. Not too many vessels to fish</li> <li>4. Do not dynamite, net our sea.</li> </ol>

**One day there will be an “Ocean law” – what do you think should be included/considered?**

- Marine preservation, do not harvest our marine resources
- Inform the ministry of fisheries to stop allowing fishing vessels to fish besides our islands
- Enforce the law of disposal/ dumping rubbish into the ocean.

**Group 3: Ontong Java**

Questions	Coastal	Offshore
What activities currently exist in the ocean (economic, cultural, social and management)?	(Yellow) <ol style="list-style-type: none"> <li>1. Fishing – food</li> <li>2. Fishing/ collects shells – woman</li> <li>3. Tow line – bonito, tuna</li> <li>4. Shark fishing – fins</li> <li>5. Beach de – mer fishing – sea bed trolling</li> <li>6. Beach de – mer free dive</li> <li>7. Landing anchorage – every ship</li> </ol>	(Yellow) <ol style="list-style-type: none"> <li>1. Ship wreck on Ronoador reef (2 cases this year)</li> <li>2. Fishing nets (ghost) being dumped/ found in waters around islands’.</li> <li>3. Plastic/ rubbish</li> </ol>

	8. Airport (Dormant) 9. Wreckage (1800s) James Binny.	4. Traditional relationship, trades (Tasman –OJ)
What activities would you like to see where?	(Green) 1. Hasoro (deep sea fish) – oil fish, traditionally practised 2. New ship routes 3. Beach de – mer farming 4. Tourism (dive, snorkelling, surfing, wreckage) 5. Traditional tuna fishing 6. Mari culture – (shell, trochus, crayfish, clam shells, pearl oysters) 7. Proposed protected area 8. Outrigger carving 9. Cultural centre (library, archives)	(Green) 1. Clean ocean 2. Restrict turtle fishing 3. Strict control of commercial fishing nets (ghost). Tag nets, registered nets (company) 4. More investment towards mari-culture, beach de – mer farming ocean festivals/ promotion.
What activities do you think should be stopped or restricted?	(White) 1. Flying fox hunting/ birds/eggs. 2. Beach de – mer sea bed trolling (existing spots) 3. Restrict ship routes (in the lagoon) 4. Restrict clam shell & trochus fishing (domestic market) 5. Turtle hunting – restrict everywhere.	(White) 1. Rubbish dumping 2. Over fishing (tuna commercial) 3. Deep sea mining

**One day there will be an “Ocean law” – what do you think should be included/considered?**

- Provide a platform for ocean community to make submission to the government and the industry.
- Impose heavy penalties to ocean polluters
- Be a permanent partner in the ocean planning and development processes

- Access to information of the benefits of ocean development eg; tuna industry, sea bed mining.

## Participants lists

### Auki stakeholders, 27<sup>th</sup> August 2019 (Morning session)

	Name	Organisation	Consultation Venue	Gender
1	Frank Samo	Malaita Provincial Government	Auki	M
2	Franklin Maefilia	Fisheries	Auki	M
3	Robert Anita	F/M	Auki	M
4	Augustine Waki	EDP	Auki	M
5	Rama Belo	Malaita Provincial Government	Auki	M
6	Stenneth Talota	Malaita Provincial Government	Auki	M
7	Ben Billy Mae	Malaita Provincial Government	Auki	M
8	Mercy Philip	Ward 2	Auki	F
9	Hon. Dickson Pola	Minister of Health	Auki	M
10	Henry Adi	Royal Solomon Islands Police Force (RSIPF)	Auki	M
11	Linda Sandu	House Wife	Auki	F
12	Stewart Tatabu	Rif Solomon	Auki	M
13	William Walefia	Fisherman	Auki	M
14	Charles Bosi	Fisherman	Auki	M
15	Peter Sara	Fisherman	Auki	M
16	David Dau	Malaita Provincial Government	Auki	M
17	Charles Kafo	Auki Community High School	Auki	M
18	Peter C. Taraumae	Malaita Provincial Government	Auki	M
19	Danny Manasiau	Malaita Provincial Government	Auki	M
20	Hon. Martin Moe	Malaita Provincial Government	Auki	M
21	Erick Mani	Malaita Provincial Government	Auki	M

### Auki Stakeholders, 27<sup>th</sup> August 2019 (Afternoon Session)

	Name	Organisation	Consultation Venue	Gender
1	Ileen Ladoa	Auki	Auki	F
2	David Laeta Malau	Auki Market Vendor	Auki	M
3	John Kesty Kifo	Kilusakwalo	Auki	M
4	June Toloau	Bina Village	Auki	F
5	William Dausina	SIWA	Auki	M
6	Benjamin Waleilia	OKRONUS	Auki	M
7	Bennie Rainao	Rufoki	Auki	M
8	Paul Baera	OKRONUS	Auki	M
9	Stewart Tatalu	Rif Solomons	Auki	M
10	Nelson Niuga	Fisheries	Auki	M
11	Andrew Wale	Lilisiana	Auki	M
12	Jill Houma	Assistant Fisheries Officer	Auki	F
13	Adam Billy	Auki	Auki	M
14	Fred Osifelo	Kwaio	Auki	M
15	Grace Tegu	Faasitoro	Auki	F
16	Jenny Kwaromo	Rurusia	Auki	F
17	Filestus Sago	Fasitoro	Auki	F
18	Willie Bill	Gwaunalefu	Auki	M
19	Benjamin Firibae	Correctional Service	Auki	M
20	Albert Datega	Kwao	Auki	M
21	Andrew W Koti	Auki	Auki	M
22	Nathan Maediu	Auki	Auki	M
23	Calisto Daola	Fisheries	Auki	M
24	Philip Lado	Kilusakwalo	Auki	M
25	Martin Jasper	Fisheries Office	Auki	M

### Malu'u, 29<sup>th</sup> August 2019

	Name	Organisation	Consultation Venue	Gender
1	Ashley Ramo	Maluu	Maluu	M
2	Davidson Omealanga	Kolofi	Maluu	M
3	Evangelyn	Muina	Maluu	F
4	Margaret Duke	Raubabate	Maluu	F
